

THE MAGAZINE FOR NANOTECHNOLOGY

NANOTECH

August 2022

Issue #74

GRAPHENE IN BUILDINGS

Latest market and company developments in graphene for the construction sector.

NANOTECH PRODUCTS

All the latest nanotech product news.

NANOTECH INVESTMENT NEWS

Latest nanotech investments, commercial agreements and rounds of finance.

LATEST NEWS

Market focus on what's happening in nanotech research, composites, batteries, coatings, funding and finance.

771473 968012

Nanotech Magazine is published by Future Markets, the world's leading publisher of market information on advanced materials and nanotechnology.

IN THIS ISSUE

THIS MONTH

P.04

Latest nanotech investments, financial reporting, investment plans, commercial agreements and rounds of finance, July-August 2022.

P.05

Reducing the manufacturing cost of Li-ion batteries for electric vehicles using graphene oxide.

P.07

Cellulose nanofibers for new agricultural materials.

PRODUCT FOCUS

P.08

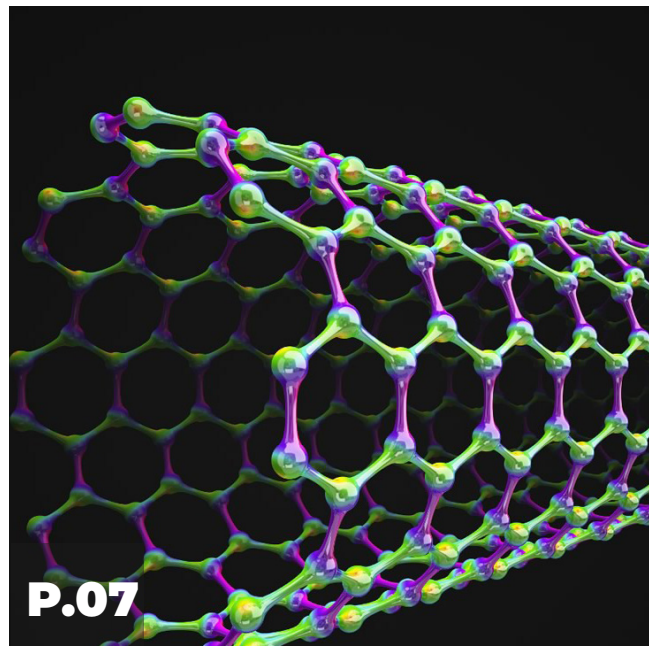

Nanobubble technology for treating and improving water.

P.09

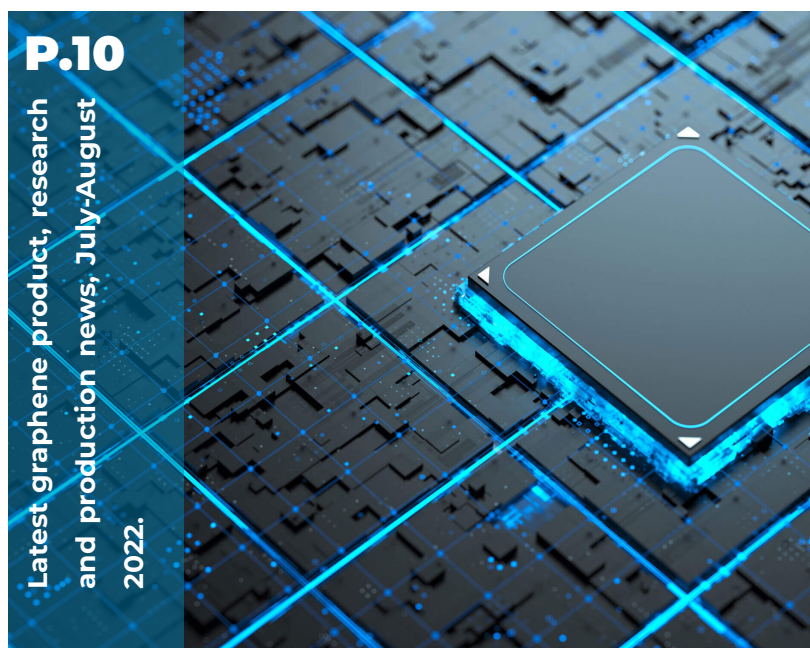

Latest carbon nanotubes developments in South Korea.

P.10

Latest graphene product news, July-August 2022.

Latest nanotech product and product development news including cellulose nanofibers, nanotubes, polymer nanofibers, carbon nanomaterials and nanobubbles.

GRAPHENE FOCUS

P.11

Graphene in hydrogen production, thermal textiles., and graphene photonics for high-speed data and telecommunications networks.

P. 12

Graphene-based polymer compounds for EMI shielding, hydrogen pressure vessels for vehicles, and graphene for electric vehicle batteries.

P. 14

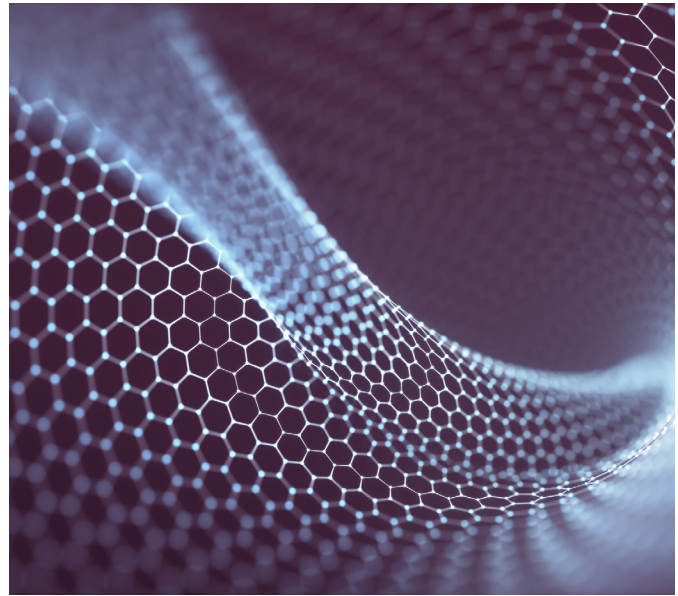

Graphene energy product news, July-August 2022.

P. 16

Graphene production news, July-August 2022.

P. 18

Graphene construction product news, July-August 2022.
